

## Nursing Facility Transition

This program provides adults an opportunity to choose community-based living as an alternate to nursing facility residency. Northern Health Care Management will assist people in: returning home, moving in with family or friends, moving into a foster care home or finding new housing. A person centered plan will be developed based on the choices and active involvement of the individual wishing to move from the nursing facility.

## Northern Health Care Management

## Community Based

This program allows individuals to remain in their own home with various support systems established to remain safe. Northern Health Care Management will assist people in: identifying and setting up supportive services needed and desired to remain in the living choices the individuals wish, coordinating payment of care, and ongoing support.

## About Us

Northern Health Care Management is proud to be a part of Michigan's statewide effort to provide comprehensive services for persons who are nursing home eligible and choose to receive care at home. This program is commonly referred to as the Waiver Program or MI Choice.

A person centered plan will be developed based on the choices and active involvement of the individual wishing to move from the nursing facility or who wish to remain in their community.

Through the assistance of our Supports Coordinators' assessment of the individual's needs, we establish and maintain and most often arrange payment for in-home care.
