- Height, weight
- Blood pressure
- Cholesterol
- Triglycerides
- Blood sugar
- Healthcare management
- Healthy nutrition
- Tobacco recovery
- Physical activity
- Stress management

Services offered

- Onsite primary care & health screening
- Lab services
- Specialty care referrals
- Assistance in helping you manage your health conditions
- Mental health medications
- Therapy services
- Substance use screening and treatment
- Disease management
- Maintaining health and wellness
- Recovery services
- Learn how your illness impacts your body, your mind, and your daily life
- Peer recovery support & coaching
- Support obtaining benefits

Open to anyone in the community regardless of insurance.

Health Home Benefits

Integrated Health Clinic patients also receive these Health Home benefits:

Comprehensive Care Management

A Care Manager will help you identify and achieve your health and wellness goals.

Care Coordination – We help coordinate your current and/or new provider(s), including specialists.

Health Promotion – Access health education opportunities and resources.

Transitional Care – When you have a change in your care needs, such as leaving the hospital, our team can support you and make sure you have what you need to be safe and healthy.

Individual and Family Support

Community Health Workers and Peer Support Specialists, support groups, and self-care programs are all available to you.

Referral to Community and Social Support

– We will help you find resources closest to your home and help you access these resources.
